

## RAPID LOCATE™

For SHIELD™ Covers

### CHANNELL RAPID LOCATE™

Channell's "Rapid Locate" for SHIELD Covers (Patent Pending) provides easy access to locate wires without removing the cover.

Rapid Locate makes locating safe, easy, and secure. It provides easy access to locate wires

without the need for an unsightly locate pedestal or post — making homeowners happy.

Innovating since 1922, Channell Commercial is built for the future.

# FEATURES

- **SAFE** — no exposed hole in the ground when the locator is away from the vault. The retractable isolation switch can simply be covered with a safety cone.
- **EASY** — isolation switch function eliminates the need for cover removal to perform a locate, and no cables or locate wires need to be disconnected.
- **SECURE** — if the isolation switch is accidentally left in the “disconnect” position, all cables are bonded back together when the hatch/door is reinstalled. And you do not have an external pedestal/post exposed to vandalism, vehicular traffic, and large mowers in a Right-of-Way; or extra copper wire that is attractive to thieves.
- **ATTRACTIVE** — no need for a locate pedestal or post.
- **COST EFFECTIVE** — because of the simplicity of installation and no need for pedestal or additional copper wire or construction costs for routing wire.

1. Remove bolt securing Rapid Locate and remove hatch.

2. Slide mechanism up and out of the cover.
3. Isolate locate wires by sliding the switch upward.
4. Connect locator to corresponding stud and ground stud.

5. Disconnect locator.
6. Push isolation switch into bonded position (down).
7. Slide mechanism into “stored” position below cover.
8. Install Rapid Locate hatch.
