VAULTS

Channell's **BULK**® & **SHIELD**® Underground Vault System is the industry's most recognized lightweight high-performance handhole/vault solution. Meeting or exceeding all standard industry specifications, Channell's **BULK** vault with Tier 22 **SHIELD** lid weighs up to 60% less than traditional materials. Pair the **BULK** vault with a 3,000lb rated HDPE lid or H-20 rated Ductile Iron lid for other applications. Easy to handle, easy to modify (with no dangerous dust), and innovative features like the patented **Never Seize** fastening system or optional **Self-Lock**™ make **BULK** the right choice!

Additional vault options include the **SGLB** (Signature Grade Level Box) series and **HRV** (Hartland Round Vault) with standard Self-Lock as well as the **GLB** (Grade Level Box) series of pedestrian rated products.

FIBER CONNECTIVITY

Channell's fiber optic network solutions consist of **Green Hornet**® splice and terminal closures, **Yellow Jacket**® aerial terminals, **Optimus**® wall terminals and fiber distribution cabinets, **GOAT**® fiber pedestals, **Flash**®, & **Mini-G**™ hardened terminals. Channell fiber solutions have a long legacy of innovation with over 10+ million FTTH homes passed deployed globally at hundreds of customers. Our fiber network solutions can reduce the total cost of ownership up to 10x compared to traditional network designs and dramatically improve speed of deployment. Channell's fiber solutions have decades of field-proven performance focusing on high-performance design standard and long-term reliability in even the harshest outside plant applications.

PEDESTALS

Channell is the leader in thermoplastic pedestal enclosures. Channell's free-breathing pedestal enclosures are available in a wide range of sizes and configurations. They are constructed of rugged, high-performance thermoplastic material and designed to be craft friendly.

Pedestal Products- **Optimus**®, **GOAT**®, **SPH** (Signature Pedestal Housing), **CPH** (Challenger Pedestal Housing), **LPH** (Legacy Pedestal Housing).
